PRICE FIVE CENTS

40 MILLION MORE LOPPED FROM WAGES

As Strike Vote Is Being Tabulated Wage Board Active

1,500,000 ARE VOTING

New Decision Will Affect Nearly All Classes of Rail Employees

Chicago, June 13.—A corps of clerks in union headquarters of the railway shop crafts today began tabulation of strike ballots as rapidly as they are returned from shop men on the nation's railroads. Each mail increased the number of returned ballots which are due June 30.

Tabulation began with the first ballots favoring a strike. They were received last night from a Chicago electrical worker who wrote "yes" across the square in front of the three propositions upon which the referendum is being made.

Nearly one and one half million ballots went out in the mails last Saturday.

LOPP OFF 40 MILLION
Chicago, June 13.—The division in the personnel of the United States labor board, which resulted in vigorous dissenting opinions on the two wage reductions totaling \$110,000,000 effective July 1, already announced will make its appearance again when another \$40,000,000 or so is lopped off the pay checks of 350,000 more railway men this week.

The majority decision of the board was completed yesterday but a minority opinion will delay announcement of the new order for several days it was learned today. Under the board's rules any dissenting member is allowed three days in which to draw up his opinion. The new decision will affect all remaining classes of railway employees except the telegraphers for whom the board will make a separate decision later, and the train service men, whose wages were not before the board for adjustment.

MACKINTOSH FACES FIGHT IN MILWAUKEE

Head of Advertising Clubs Under Fire of Delegates to Convention

Milwaukee, Wis., June 13.—A definite break in the ranks of the Chicago delegates to the convention of the Associated Advertising Clubs of the World was noted early this morning when W. F. McClure, president of the Chicago Advertising council, declared that a defection in the support of Charles H. Mackintosh, Chicago for president was inevitable.

The break in the ranks of the association over the election was brought to a head at a meeting of the vigilance committee on Monday when Merle Siderer, Indianapolis was reported to have launched an attack on the record of Mackintosh. Mr. Mackintosh was present at the meeting at the time.

Both men denied later that anything personal had occurred. Siderer is a supporter of Louis Holland of Kansas City for president.

All night long, and ending well into the morning, various of the delegate groups canvassed on the question of election. Holland's supporters claimed 700 votes on the first ballot on Thursday. Seven hundred would be equivalent to election.

Three different groups announced that they would enter candidates to-day and would seek to secure support in case of a deadlock between Mackintosh and Holland. No names of prospective candidates were given out.

CITY BODY TO REASSESS CITY REAL ESTATE

The city commission met this afternoon in the first of its sittings as a board of equalization. While the assessor has not reassessed real estate this year the city commission has power to equalize, and it is the board's reported intention to attempt to remove present inequities. Property owners have the opportunity of appearing before the board.

NEWS BRIEFS

St. Louis, June 13.—Dr. Herman Tubolske, nationally known surgeon died of kidney disease.

Galveston, Tex., June 13.—The port of Vera Cruz has been in the grip of a general strike since Saturday, according to cable advices.

New York, June 13.—Moving picture reforms of a sweeping nature were predicted as a result of a conference between representatives of the producing field, headed by Will H. Hays, and the exhibitors.

Topeka, Kan., June 13.—Kansas wheat harvest operations became general in southeast counties with little indication of shortage of labor.

Little Rock, Ark., June 13.—Walter Allen, 11, of Prairie Grove, was instantly killed when a three inch shell which he had found exploded.

DROPPING 24,206 FEET IN PARACHUTE DURING GALE AVIATOR BREAKS RECORD

Dayton, O., June 13.—Lashed by a 120-mile an hour gale, more than four and a half miles above the earth, on the verge of suffocation, caused by loss of his oxygen tank and compelled to cling to ropes and straps attached to a parachute for fear that a whirling cross current might weaken and cause them to break, are several of the "mere" details related today by Captain A. W. Stevens, aerial photographer, McCook Field who yesterday broke the world's parachute jump record, when he descended 24,206 feet.

The fact that it was Captain Stevens' first "drop" tends to make his feat one of the most remarkable in the history of aviation. He suffered no ill-effects from his hazardous trip. The plane in which Captain Stevens ascended, a twin motored Martin bomber, piloted by Lieutenant Leigh Wade, broke the world's altitude record for this particular type of ship, carrying three passengers, when it attained a height of 24,206 feet. Sergeant Roy Langham was the third member of the party.

"For a long time I have wanted to make a parachute drop," Captain Stevens said. "Primarily to obtain first hand information as to the sensation one feels."

"When the plane reached the ceiling, I made ready to jump. As near as I could judge we were over Springfield, Ohio. Bidding my pals goodbye, I jumped."

FIRE BANDITS KILLED—THREE ARE WOUNDED

Dead Were Members of Band Of Twenty-five Mexicans

(By the Associated Press)
Nogales, Ariz., June 13.—Five bandits were killed and three are known to have been wounded in an attempt to hold up a combination freight and passenger train of the Southern Pacific de Mexico near Rosales, between Mazatlan, Sonora and Tepic, Sinaloa, Mexico, late Saturday afternoon, according to a conductor who arrived here yesterday to his home in Los Angeles.

The dead and wounded were members of a band of 25 Mexican bandits who attacked the train which was carrying a shipment of 29 bars of bullion, valued at \$28,000. The other bandit died without any loot.

The five were killed and three others wounded by General Azelardo Rodriguez, his aide and chauffeur who were passengers on the train. General Rodriguez is military governor of the state of Nayarit.

MINISTER HAD TO ADVERTISE

Then He Could Invite People To Hear Him

Milwaukee, Wis., June 13.—Advertising at it was used to draw greater congregations to church services was explained to the church advertising department of the Associated Advertising Clubs of the World here by Rev. Robert Basil Stansell, of the Grand Avenue Methodist Episcopal church of Milwaukee.

"After many perplexing experiences, I came to the conclusion that I ought to have larger congregations, and that I had something to say to the average man," he said. "I decided to emancipate myself and my ministry from moral and religious snobishness. But what could I do? I could not advertise my local church, for it was one of the best known institutions in the city. I could not advertise the Gospel; that was an old story. I was forced to advertise myself. When the people know who I was, then I could invite them to hear me tell my story."

Aviator Lived On Grasshoppers When Lost in Everglades

(By the Associated Press)
Tampa, Fla., June 13.—Cadet Aviator Raymond White, lost for three days in the Everglades was out of the hospital and back on duty at Carlstrom Field today little the worse for his experience.

In his story of the experience White stated that after going two days without food he caught and ate grasshoppers, which he found in the hammocks.

ORGANIZE WOLF HUNTS.
(By the Associated Press)
Calico Rock, Ark., June 13.—Depredations of timber wolves in northern Arkansas have become so serious that farmers of this section have organized weekly wolf hunts. During one hunt last week several wolves were killed. In the hilly country near here the wolves have not only been killing sheep and hogs but have attacked cattle.

APPOINTED TO SHIPPING BOARD.
(By the Associated Press)
Washington, June 13.—Meyer Lisner, and Rear Admiral William S. Benson, retired, were nominated by President Harding for reappointment to the shipping board.

Loosened Tank

"The opening of the parachute loosened the oxygen tanks from its fastenings on the front of my clothing. Grasping it with both hands I endeavored to retain it."

"The wind was traveling at a speed of 120 miles per hour, and whipped the parachute around like a jackstraw. I was forced to use both hands on the ropes and the straps which held me to the 'chute,' in an effort to check oscillation, which threatened to weaken the supports. It was then I lost the tank. I think it fell some place near Springfield."

"It was an experiment I shall never forget. Before settling down to a lower altitude I thought my time had come as I was nearly suffocated due to the rareness of the atmosphere. Dropping out of the gale into calmer atmosphere below I quickly recovered however."

Takes 30 Minutes
"I landed at Jamestown, approximately 25 miles from where I left the plane. The descent took just 30 minutes."

"Just before taking off at McCook Field, an orderly appeared carrying a lunch kit containing sandwiches and coffee in vacuum bottles. We ate the lunch 24,000 feet in the air and enjoyed it thoroughly. The temperature at the ceiling was zero."

Two hours and five minutes was required by Lieutenant Wade to pilot the bomber to her record breaking altitude.

LENINE IS NOT PARALYZED SAYS HIS PHYSICIAN

Moscow, June 13.—Lenine has not lost any of his faculties, and is progressing satisfactorily Dimitri Onianoff, the premier's eldest brother told the correspondent today.

"All rumors that he is paralyzed are absolutely untrue. He is able both to write and walk. At least two months will be required for a full cure and then he will certainly need a few months rest."

PRESIDENT TO FORCE ACTION ON SHIP BILL

Threatens to Call Extra Session Unless Congress Acts

(By the Associated Press)
Washington, June 13.—President Harding has notified Chairman Campbell of the house rules committee that unless the ship subsidy bill is passed prior to adjournment he would feel obligated to call a special session solely for its consideration.

Writing under date of May 26, the president said, "so much is involved and such a difficult and discouraging situation will follow if Congress fails to sanction the merchant marine bill that I should feel myself obligated to call Congress immediately in extraordinary session to especially consider it if it went over through neglect or delay beyond the present term."

Plans had been made to introduce the merchant marine measure in the house today but because of unexpected delay, it was announced that the merchant marine committee would not be able to present the bill before tomorrow. It will be referred automatically to the committee, which will report it to the house later in the week.

There was wide-spread discussion among members as to the effect of the president's letter.

The views of the president were set forth in a letter to Chairman Campbell in which he expressed hope that the rules committee would give privileged status to the shipping bill.

WANTS TARIFF FIRST.
Washington, June 13.—President Harding, it was said today at the White House hopes and expects that the tariff bill shall be passed prior to the soldier bonus legislation.

NO U. S. ACTION.
Washington, June 13.—The statement was made at the White House today that the administration is not contemplating an important, immediate or drastic action in the continuing nation-wide coal strike.

Mrs. Bruen Under Arrest Charged With Murder of Husband

Mount Holly, N. J., June 13.—Mrs. Dorris Bruen, widow of John T. Bruen, circus owner, who was shot and killed on March 10, is under arrest here today on a charge of murder. She was arrested upon information furnished by persons already held in connection with the case but declined to give further information.

Mrs. Bruen's brother, Harry Mohr and a former employee of Bruen's circus, Charles Powell are under arrest on a murder charge. Powell is declared by the authorities to have confessed that he did the actual shooting of Bruen at Mohr's request.

COULTER URGES TRANSFER HERE OF DEPARTMENT

Head of Agricultural College Would Remove Regulatory Division to Bismarck

NOT EDUCATIONAL WORK

Head of Institution Says That Work Can Better Be Done By State Government

Transfer of the regulatory division of the state agricultural college to some official in the state capitol was advocated by Dr. John Lee Coulter, president of the North Dakota Agricultural College, in an address to the 64 graduates of that institution at Fargo yesterday.

Dr. Coulter held that the regulatory work was not a proper part of the functions of a higher educational institution. He said the experience of other states had been that as the activities of the government were extended it was found desirable that state authorities take control and that the work be handled in the state-house.

Recently the state grain inspection department, which has been a part of the regulatory division of the agricultural college, was ordered transferred to Bismarck by the railroad commission. Other departments which would be transferred if Dr. Coulter's recommendations were accepted into law include the food commission, which inspects foods, drugs, seeds, hotels, oil, paints, varnishes, concentrated stock food, etc.

Many Activities
Dr. Coulter's remarks with regard to the regulatory department follow: "As North Dakota grew from territorial organization to statehood legislatures from time to time found it wise to pass laws providing for regulation of many of the activities of the people of the state. As this legislation crystallized it was found that our college was best fitted on account of its laboratories and staff of workers to enforce these laws."

"This same program was followed in other states. Unfortunately year after year the regulatory responsibilities grew by leaps and bounds and in some states presently overshadowed the collegiate division and even overshadowed the experiment stations and the extension divisions. Public men and citizens generally not being fully familiar with the detailed budgets of our colleges have frequently looked at the tremendous sums of money expended and charged these all to the education of young men and young women enrolled."

"In other states as this work is developed it has been found advantageous to gradually remove the enforcement feature to some public official at the state capitol while retaining at the land grant college all of the samples of all kinds of materials being submitted to the institution for laboratory determinations and reports furnished to the state officials as a basis for their enforcement work. It is believed by many of us that the time has come in this state when steps should be taken looking toward reorganization here."

Wants Work Transferred
"It is hoped that at an early date plans may be formulated whereby the enforcement function and the appropriation necessary to accompany the same may be transferred to some department of the state government, but that this department shall be required by law to have all scientific determinations made at this institution."

COURT STAYS COLLECTION OF DUPONT TAX

(By the Associated Press)
Wilmington, Del., June 13.—Judge J. Whitaker Thompson of the United States district court today filed a decision restraining the Internal Revenue Collector for Delaware from collecting by distraint from Alfred I. Dupont taxes amounting to \$1,576,015 on stock dividends of the E. I. Dupont de Nemours and Company. The collector, however, provided that the collector shall not be restrained from filing a suit at law for the collection of taxes.

**BOOZE RUNNERS
MUST FURNISH
CANADIAN BOND**
Ottawa, June 13.—A blow at the transportation of liquors from Canada to the United States is seen in provisions of the budget announced by W. S. Fielding, minister of finance. Liquor exporters, under the new law are required to furnish a bond double the amount of import duties on such goods to guarantee the shipments shall be delivered at the place they are listed for shipment.

TRACE OF OIL IN PHILIPPINES

San Francisco June 13.—The Standard Oil Company which a year ago sent an expedition to the Philippines has discovered gas on the island of Luzon, possibly indicating the presence of oil according to a cable received yesterday from the local offices of the company.

PARADES BIG FEATURES OF SHRINE MEET

San Francisco Gives City Over To Nobles Who Stage Celebration

MANY UNIQUE STUNTS

One Band From Iowa Carries Its Own Radio Equipment

San Francisco, June 13.—Dull care, efficiency and business threw up their jobs today, and let the nobles of the Mystic Shrine run the city, for this was the official opening of the imperial council of their ancient Arabic order.

Beginning with a parade of brightly dressed bands and patrols to escort the imperial divan from the city's gates, the day ended with the imperial potentate's ball.

From sundown to sunrise bands swung through the streets. Shrines in thousands marked by their bright fezzes, watched from the sidewalks, danced in hotel lobbies, restaurants and tea rooms, sang lustily and laughed their way through hours usually given to sleep.

Today the city awoke to bugle calls and crowded into the grandstands that flanked the streets.

At the head of the parade today, a place was set aside for the imperial potentate Ernest Allen Cutts of Savannah, Georgia, the deputy imperial potentate who will succeed him, James McCandles of Honolulu and other members of the imperial divan.

During the night belated special trains of Shriners hurried into San Francisco to be ready for the opening.

As these late coming temples arrived their bands and patrols marched through crowded streets on their way to their hotels, sleep having been forgotten by everyone, visiting Shriners and the San Francisco populace alike. Za Za Zig chanters from Des Moines, Iowa, and band, carried their own radio equipment with them to broadcast their music as fast as they made it.

Aladdin Temple of Columbus, Ohio, to which President Harding belongs, proved itself a true friend of the fourth estate by spending most of its time serenading the newspaper offices.

"I've got one wife and maybe more. I've got children by the score" sang El Kalah nobles from Salt Lake City to the tune of "Little Liza Jane."

Athletic nobles from Murat Temple, Indianapolis, caused a great shortage of breath in the downtown business section by doing a human pyramid act on the parapet of a twelve story business block.

ACCEPT OFFER OF PARK LAND

Commissioner Thompson to Work Out Details

The city commission in meeting last night discussed the offer of Henry Tatley, to donate his interests in the Lincoln Improvement company's addition in the southeastern part of the city for park purposes. The commission accepted the offer if certain details can be worked out and delegated Commissioner H. A. Thompson to work out with Mr. Tatley certain matters relating to a street which must be settled.

The plot of ground offered is considered an excellent addition to the park facilities of the city. Water mains are very close to it, and it is believed it can be made a recreation spot and playground for the people of that section of the city. The city commission expressed appreciation of Mr. Tatley's public spirit.

CROP OUTLOOK IS FAVORABLE

Fargo, N. D., June 13.—Crop conditions in the state are generally excellent, according to scattering county agent reports for last week to John W. Haw, county agent leader. Rains last week came just in time to save it in some sections, however, he added, saying that some damage had been done where wheat stools had been burned while rye had been freed into too speedy growth. Such damage was reported from Cavalier and McHenry counties. Grasshoppers are reported in a few cases but are not doing much damage. Rains fell again yesterday in many sections of the state.

HAIL STORM SWEEPS FOUR COUNTIES SOUTH OF HERE, CAUSING HEAVY LOSS

Hail storms which touched at least four counties in the southern part of the state late yesterday caused heavy loss to winter rye crops, according to reports received here today. Hail storms which caused losses ranging from 25 to 75 per cent on winter rye were reported from Dickey, Logan, McIntosh and Emmons counties. Wind which accompanied the storm in the vicinity of Merricourt and Fullerton, in Dickey county, also caused some damage. The storm is believed to have centered around these two towns. The wind storm did not extend north into McIntosh county, but there was heavy rain and hail.

Hail was reported to have fallen at Kulm, Fredonia, Burnstad, Napoleon, Kintyre, Braddock, Danzig and Ashlev, stations on the Soo line. The rain in portions of the storm area is said to have amounted to 1.75 inches. There also was a heavy rain storm in McLean county last night accompanied by hail which damaged crops.

Quits President

President Harding has the same trouble as other business men—he can't keep a stenographer. Miss Coranella Mattern, Frankfort, Ky., will resign to wed Norman B. Shepherd, New Haven, Conn.

FEAR TOLL OF STORM DEATHS MAY REACH 70

Will Be Days Before Entire Extent of Storm Disaster Is Definitely Known

New York, June 13.—Revised reports today from Sunday's storm indicated that from 55 to 60 persons had perished in the tempest that swept the metropolitan area, taking its greatest toll among boating parties at City Island.

Last night it was reported that about three score bodies were in the morgues scattered along the coast from New Jersey to Connecticut but this morning it was found that in certain cases where transfers had been made names had been duplicated.

At one time the revised list was reduced to 45 known dead and 16 missing but several of the missing later were found dead but not reported and occasionally bodies were washed up along the shore.

At noon the count of known dead stood at 55 with many still missing. At least forty visitors to City Island were drowned in the disaster and the police are convinced the death list will reach as high as seventy. It will be days before the total loss of life will be known.

The Bronx grand jury has started an investigation of the wreck of the ferris wheel at Clason's Point, in which seven were killed and 40 others seriously injured. The owner, who was arrested after the tragedy, will face the grand jury today.

The property damage resulting from the wind running into millions. Electric light and power lines were destroyed for miles as the poles bearing the cables snapped. The loss from plate glass is only exceeded by the Black Tom explosion, according to insurance companies. Freak stunts of the storm constantly appear. A roof from a church in Yonkers was lifted off and dropped upon a passing automobile containing five persons. None was killed.

CREDIT MEN SAY "DEAD BEATS" NOT SO NUMEROUS

(By the Associated Press)
Cleveland, Ohio, June 13.—Persons who never pay their bills, generally referred to as "dead beats" are rapidly disappearing, according to delegates of the retail credit men's national association, in tenth annual convention here.

"Neither men nor women overbuy luxuries as they did during the war and in the after the war flurry," George A. Laws of Memphis, Tenn., president of the association added. "It is a combination of education and co-operation that is eliminating the bill jumper."

G. A. R. GATHERS IN EAU CLAIRE

Eau Claire, Wis., June 13.—Eau Claire was today decked out in red, white and blue in honor of the venerable veterans of the Civil War, who began arriving here last night and this morning for their annual state encampment of the G. A. R., which opens officially this afternoon.

There are others who view the wire of McCumber as a step in the right direction toward getting every Republican together in support of the Jamestown ticket. These declare that the atmosphere has cleared and that Senator McCumber has opened the way to a closer alignment with the I. V. A. machine.

The campaign of Stegner, Serurgard and Kooker, however, is going forward independent of any senatorial campaign or ambition. These men announced today that their candidacy is in no way connected with that of Senator McCumber, but is being fought solely upon the issue of continuing the industrial program or scrapping it and that they will go into the primaries with their ardor in behalf of the program unabated.

Stegner and Serurgard were in Minot Monday evening campaigning in behalf of their platform of scrapping the industrial program and will speak this evening at Devils Lake, the home of Mr. Serurgard.

HUGHES FORCES ENDORSEMENT FOR I. V. A. SLATE

Senator McCumber Endorses Nestos Administration His Wire

DISCLAIMS RESPONSIBILITY

Senior Senator Gives Approval To Action at Jamestown Convention

NESTOS IS SILENT
Madison, Wis., June 13.—When interviewed in relation to Senator McCumber's endorsement of his candidacy, Governor Nestos declared that he had nothing to say.

Fargo, N. D., June 13.—Senator Porter J. McCumber, chairman of the senate finance committee, in a telegram to his campaign headquarters here today denied any connection with "certain candidates for state offices who have entered the field since the Republican convention at Jamestown." He is a candidate for the Republican senatorial nomination.

He declared himself unqualifiedly in favor of the re-election of Governor R. A. Nestos and declared the whole Republican ticket chosen at Jamestown had his support.

Democratic Registration.
Another factor that enters the political situation at the beginning of the last two weeks of the pre-primary campaign is the reported large increase in Democratic voters registered. It is receiving attention at the political headquarters here. According to some reports it is already triple that of the last election and according to others it is 34,000, as compared with 14,000 Democrats registered last time.

Registration of women voters who voted but did not register at the last election, and the contests within Democratic ranks are given as reasons.

McCumber's Telegram.
Mr. McCumber's telegram follows: "It has been brought to my attention that reports are being circulated that I am responsible for bringing out certain candidates for state offices who have entered the field since the Republican convention at Jamestown. I am not directly or indirectly responsible for the candidacy of any one except myself and have not been consulted by any of the other candidates. When the manager of my campaign, Mr. Hughes, moved on the floor of the convention that no endorsement for senator be made, he asked my friends to support the state ticket nominated there. He did this with my approval and I have not changed my position."

"I shall be unable to get into the state during the campaign because of work here on the tariff bill and for that reason will be unable to make any statement from the platform. I am entirely satisfied with the ticket nominated at the Jamestown convention and unqualifiedly in favor of the re-election of Mr. Nestos and the others nominated there."

DISCLAIMS CONNECTION
Senator McCumber's statement was considered the most important political development to date.

It is regarded as the direct effort of R. J. Hughes in North Dakota and a member of the Spalding Real Republican committee. He has insisted from the first in placing the I. V. A. organization and Saturday, failing in his efforts to have H. L. Stegner, candidate for governor; Silver Serurgard, candidate for commissioner of agriculture and labor; and J. A. Kooker, candidate for secretary of state; withdraw from the contest, announced that Senator McCumber would enter a general disclaimer as regards the third ticket in the field.

Nestos in Madison
Governor Nestos is in Madison, Wis., today and an effort was made to reach him to ascertain whether he would formally endorse the candidacy of Senator McCumber. No statements were made today by other candidates on the Jamestown ticket as to their attitude.

Politicians were divided as to the effect Senator McCumber's endorsement of the I. V. A. candidates would have upon his candidacy. Opinion was divided. Supporters of the Nestos administration were inclined to view it with favor, although it did not change their attitude toward McCumber in the least and that they did not favor him because of the endorsement.

Others Favor It
There are others who view the wire of McCumber as a step in the right direction toward getting every Republican together in support of the Jamestown ticket. These declare that the atmosphere has cleared and that Senator McCumber has opened the way to a closer alignment with the I. V. A. machine.

The campaign of Stegner, Serurgard and Kooker, however, is going forward independent of any senatorial campaign or ambition. MARS "ONLY"

42,300,000 MILES AWAY

Was Nearer Earth Saturday Than It Has Been Since Year 1909

"OPPOSITION TO MARS"

St. Louis, June 12.—Saturday was the best time to communicate with Mars as the planet was nearer earth than it has been since 1909, being 42,300,000 miles away, according to the Rev. Father Martin S. Brennan, local astronomer, who observed what he termed the "opposition to Mars."

The "opposition to Mars," Father Brennan said, caused wide-spread attraction in this section of the country on recent nights, when many persons inquired about "a bright red star in the East." Father Brennan explained that Mars was so near to earth that it outshone the planet Jupiter, this causing Mars to be seen so vividly.

"All the scientific world is taking the greatest interest in this opposition to Mars," he continued. "It revivifies the idea of signaling to that planet."

"Now is the favorable time to get some message to the fabulous Martians. All kinds of instruments are being equipped in an effort to see the canals of Mars and the polar snows and caps. Some of those who are very enthusiastic are going down a shaft of a mine, using the shaft as a long telescope tube."

"But we are powerless with equipment now to bring Mars close enough for us really to see much. Think of the moon, only 250,000 miles away, and Mars over 42,000,000. Even on the moon we could not see the biggest animals in the world, much as we might try. If there were dinosaurs walking around up there, 120 feet long, like those old fellows we hear about, we couldn't see them on the moon."

"There is a limit to our vision, because of the waviness of the air, which is heated by convection. We do not see this with the naked eye, but with a thousand diameters magnifying power it looks like running water. Another hindrance is the expansion and contraction of the glass by heat or cold. If something could be invented instead of glass, that would have the properties of glass, and yet be able to withstand heat and cold we might bring the heavens closer to us."

The astronomer added that Mars in 1924 will come to the nearest point possible to the earth, when it will recede.

WHEAT LOAF IS PROBED BY GOVERNMENT

Half of Dollar Paid For Bread Goes to Distribution

Washington, June 12.—A loaf of bread and joint commission on agricultural inquiry, said in a report published today, offers a striking example of what happened to the farmer's product in the way of costs and profits before it reaches the family table.

About fifty cents out of each dollar he pays for bread, the report said, is absorbed in cost of distribution. The farmer gets only 25.6 cents in the local market for the wheat needed to produce it. A survey showed that the average cost of getting the wheat ready for the baking stage was 8.4 cents, while the average cost of manufacturing it into bread was 10.10 cents of the dollar paid by the bread buyer.

"A considerable factor in the baker's cost of distribution which averages 15.76 cents on the consumer's dollar is the service element," said the report.

"Our inquiry does not indicate that the manufacturing baker has exacted in undue profit in taking the 5.3 cents from the consumer's dollar for manufacturing bread and distributing it to the retailer."

BISMARCK BOYS BREAKING CAMP

Regatta Is One of Features at Lake Isabel

Bismarck Boys Camp, Lake Isabel, June 12.—The "big boys" camp was breaking up today after a fine time.

One of the big features of the camp was the regatta. The course was parallel with the shore and included one turn. A strong breeze blew directly across the course and made it very choppy. The course was shallow enough to be waded so an upset, if humiliating to the crew, was great fun for the spectators.

The popular event was the four-oar race in which four boys and a skipper constituted a crew.

In this event Art Bender's crew composed of Art Bender, Al Benson, Fritz Wanner and Bill Byrne and Skip Arnold Von Hagen led the Cordon crew by a full length with Slattery's crew third.

In the two oar events Ralph Parsons and Bill Lenhart were easy winners, getting a good lead at the turn they held it to the finish. Art Bender and Bob Nussle were second and Arnold Von Hagen and Bill Byrne third.

A great deal of sport was found in trying to negotiate the course in a canoe.

Slattery's four-oar crew challenged Art Bender and Ralph Parsons in the canoe. It was a good race for half the course, with skill and canoe bow to bow. The canoe men began to spurt and this proved their undoing, and over they went.

Art Bender's team won the baseball "watermelon" in the final game with the Scouts Saturday evening. A very interesting discovery during camp was a Mongolian or Ring-necked pheasant nest in which were two eggs.

Lee Pettibone, who has done much to introduce and care for the pheasants here is much interested in the discovery of the nest.

Notwithstanding the fact that the boys have had four cold, wet days they are enthusiastic about Lake Isabel as a camping spot. Our Camp Mother is just splendid and grub and cooking is all that could be desired.

The boys will return home Monday evening.

Any boys twelve years of age or over who desire to go to camp next are asked to communicate with Mr. MacLeod at 460M.

EXPANSION PLAN IS ADOPTED

LaCrosse Wis., June 12.—In its closing business session the Lutheran League of the Norwegian Lutheran church of America adopted resolutions providing for the employment of a full time secretary in each district of the league; planning for the organization of Canada leagues and providing that the office of legislative secretary be retained. A sacred concert by the Christ church choir of St. Paul featured the closing session. Professor J. A. Aagaard of Moorhead, Minn., delivered the address.

The convention also went on record as favoring the enforcement of the 18th amendment and opposing the return of beer and light wines.

HOLD ALLEGED LAW VIOLATORS

Fargo, N. D., June 12.—The following arrests for alleged violation of the national prohibition act were announced today at the office of James F. Shea, United States marshal:

Mike Wendt and Nels P. Nelson, Esmond; Antone Gunderson and Henry Herman, Minnewaukan; Frank Dietz, Jacob Volk, Clem Job and John Manuel, Knox. They were released on bond to appear for trial before Judge Andrew Miller at the term of federal court beginning July 5 at Devils Lake.

LUTHERANS NEAR END OF SESSION

Fargo, June 12.—The national annual convention of the Lutheran Free church of America will end here tonight with devotional services. Today was given over to consideration methods of accomplishing changes authorized during the convention. The committee chose to confer with committees of the Norwegian Evangelical Lutheran church of America and the Lutheran Brethren church with a view to consolidating the three churches will report at a later date.

The place for the 1923 convention was not chosen, it was announced.

SPEED COP MAY PATROL ROAD

A speed cop may soon be patrolling the "pen road," according to Chief of Police Martinson. A general disregard for the speed laws on this road, most of which is within the city limits, has brought the threatened action. Policemen also are instructed to give close attention to violation of the speed limit in the city proper, and especially in the downtown district, he said.

MAY HAVE MADE SOME MISTAKES

Governor Makes Statement on Pardon Board Action

Fargo, June 12.—Defense of the pardon board's action in pardoning nine criminals from the penitentiary and extending clemency to a score of others, including a total of nine convicted of violating liquor laws, is contained in a statement issued here by Governor Nestos. Some mistakes may have been made, the Governor said, as the board considered 120 cases in two days.

"I am sorry that a considerable number of good people have taken exception to the action of the pardon board in releasing certain prisoners, and in recommending another one for a parole," said Mr. Nestos. "I presume that in some of these cases we have made a mistake, but I can assure the people that in each one of the cases we took our action on the basis of all the information we had, and were convinced at the time that we were acting for the best interest of the state, and in conformity with the spirit of the pardon law. Yet I can see where, with all the multifarious duties to attend to and with the press of public business, we may not in all cases have secured full information."

CAPPER BILL IS FAVORED

Washington June 12.—Favorable report on the Capper-Tincher bill to amend the future trading act to meet the recent decision of the supreme court declaring sections of that act inoperative was ordered today by the house agricultural committee. The measure which was reported as introduced is expected to be taken up in the house Thursday.

LEASURE-JOHNSON

Washburn, N. D., June 12.—Victor E. Leasure and Miss Amy A. Johnson of Underwood, were married Wednesday afternoon at the Lutheran parsonage by Rev. Harold Hansen in the presence of Mr. and Mrs. Otto Snyder who accompanied them to Washburn. Mr. and Mrs. Leasure are popular young people of the Underwood vicinity. They will make their home on the farm eight miles west of Underwood.

FRENCH FAVOR SOVIET PROBE

(By the Associated Press)

Paris, June 12.—Premier Poincare's reply to the British memorandum on the subject of The Hague conference was delivered to the British embassy this evening. The reply says that if experts are sent to The Hague from France they are likely to favor a proposition for the sending of an expert commission to Russia to investigate conditions there, if Russia will consent.

ROB COLLECTOR OF \$4,500 ROLL

Des Moines, June 12.—C. L. Cole, collector for a wholesale tobacco company was held by three men and robbed of \$4,500 in cash in the lobby of the Hubbell building today. Several other men in the lobby were also held up and robbed.

POISON ATTACK UPON GOPHERS

Washburn, June 12.—Last week the gopher poison mixing work was finished for the season. County Agricultural Agent, Norling, has been assisting the township officers in mixing the poison. The last batch of 18 bushels was mixed at Russo for Otis township on Monday. J. M. Eastwood, clerk, is in charge of the poison. Seventeen bushels have also been

mixed at Ben Galbie's place in Platt township. If you live in Platt, see Ben.

Ten bushels were mixed at Max for Economy township. A. C. Freitag and M. E. Songstad had charge of the mixing.

The poison for Blue Hill township was mixed at H. C. Albert's place. Greatstone township mixed 14 bushels at Benedict. George Aas, Chairman of supervisors is distributing the poison for that township. This year twice as many townships as last year are trying to keep the gophers down to where they can do no great damage. If each farmer will make an effort to get the few that are left the gophers should soon be as scarce as the buffalo.

POOL OPENS TO BIG CROWD

Swimmers of All Ages Have Good Time

The swimming season is on! Old uns, middle-aged uns and kiddies all had the time of their lives Sunday afternoon, the opening of the pool for the season. The air was a bit chilly, and the crowd was not quite as large as it might have been. The swimmers deserted the pool about 9 o'clock at night.

Arthur Bauer, manager, announces the pool will be open from 2 p. m. to 10 p. m. for the time being, and later probably will be opened also in the morning. The pool staff includes Mrs. Hawk, in charge of the ladies' dressing rooms; George Holts, office and life-guard; and Austin Reid, life-guard.

SCHOLARSHIPS ARE AWARDED

Washburn, June 12.—Commencement exercises held at the Liberty Theater closed the term of the school year for the pupils of the Washburn school.

Prof. A. E. Thompson awarded the scholarships of the year to the two students who had made the highest average grade for the four year course. Miss Bessie Findley, daughter of Mr. and Mrs. Chas. Findley, who lives in the Creek Line district, made the highest average, 93 plus, and was awarded the four year scholarship to Jamestown College. Miss Grace Fahlgren, daughter of Mr. and Mrs. John Fahlgren of the Conklin neighborhood, made the next highest grade, 92 plus, and was awarded the one year scholarship at Fargo college.

NAME DELEGATES TO DEVILS LAKE

Washburn, N. D., June 12.—At the regular June meeting of the local post of the American Legion, Archie Fahlgren, Commander of Victor B. Wallin Post No. 12, and Harris Robinson, Post Adjutant, were elected as delegates to the 4th Annual Convention of North Dakota Legion men, June 20, 21 and 22 at Devils Lake.

At the same time and place the First Division men in North Dakota will hold their reunion. Mr. Fahlgren was a member of the 6th F. A. of the 1st Division. Harris Robinson has been the efficient Adjutant of the Post since the first of this year and

For States Attorney Burleigh County

I am a candidate for nomination as States Attorney for Burleigh County and solicit the support of the voters for that office.

My training and experience to fit me for this office is as follows: I am a graduate of both Cornell College (Iowa) and Harvard Law School. I commenced practice in Fargo in 1916, and since that time with the exception of two years in the army, I have been actively engaged in some branch of law practice, part of the time as Assistant United States Attorney for North Dakota and more recently as Commissioner of Workmen's Compensation, where I have had charge of much of the legal work.

This is the first time I have ever sought election to any office, and my only promise, if elected, is to enforce the law without bias or favoritism and with as much vigor and good sense as I possess, and devote all the time and industry necessary to properly fulfill the duties of the office.

PHILIP ELLIOTT

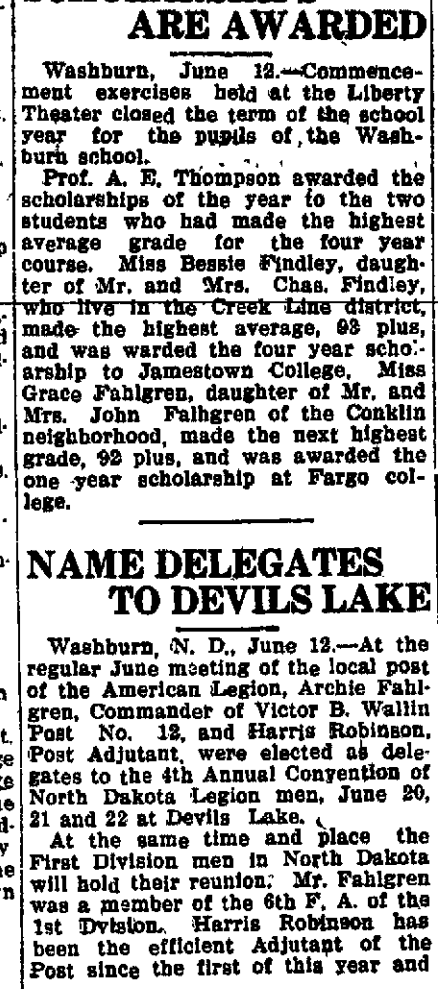

is well acquainted with many legion men in the state. Henry Wahl and William Meyer were elected as alternates and the members of the local post feel they will be well represented. A number of the boys will drive over.

Sow Alfalfa In June

To obtain the best results, and to be sure of three full crops next season, Alfalfa should be sown this month. June sown Alfalfa has ample time to become deeply rooted before cold weather, so it will withstand a severe winter without damage, and will produce a full crop the following June.

The soil is now in ideal condition for seeding alfalfa. The heavy rains have penetrated far below the surface, so that Alfalfa sown this month will develop an unusual growth, resulting in a good stand which will resist extended droughts and yield good crops.

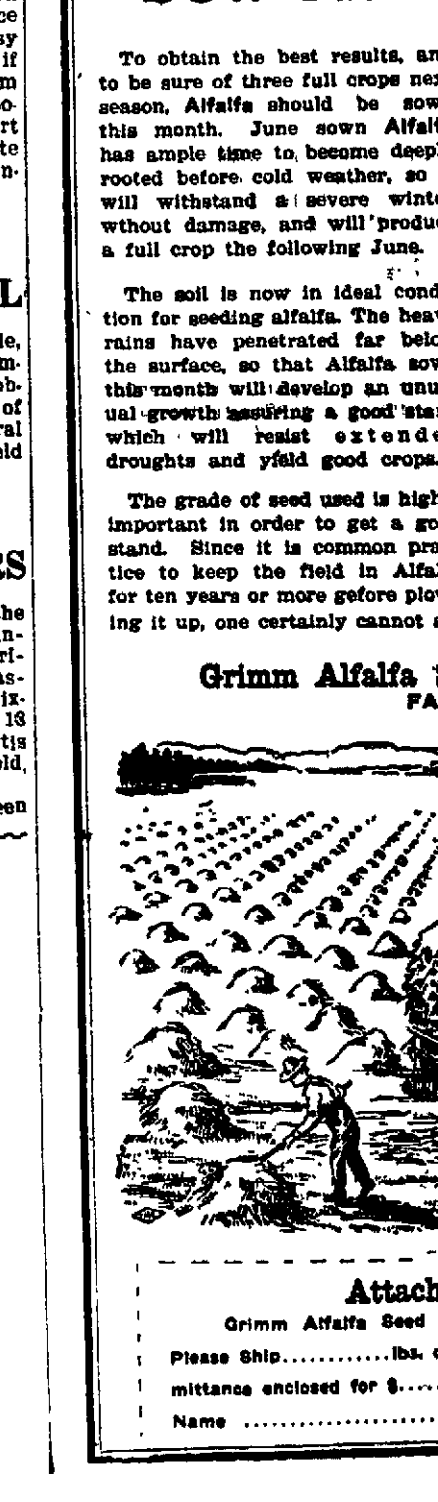

The grade of seed used is highly important in order to get a good stand. Since it is common practice to keep the field in Alfalfa for ten years or more before plowing it up, one certainly cannot afford to take chances on inferior quality seed.

Genuine Certified Grimm Alfalfa Seed costs only about \$1.50 per acre, figuring six tons of hay per year for ten years, the seed cost is only 2 1/2 cents per ton.

Grimm Alfalfa is a hardy, long-life crop which thrives under the most severe climatic conditions and yields one to five tons more per acre per year than common alfalfa or other hay crops.

Genuine Grimm Sweet Clover Special Alfalfa Seed (from Registered fields) contains 6 per cent sweet clover and is an ideal mixture which will produce a large crop early next year. Price, while the supply lasts, only 30c per lb. Instructions and suggestions on how to get best results with every shipment. Use the order blank—today.

DEVILS LAKE IS PREPARING FOR LEGION MEET

Speakers Will Include Judge Landis, Hanford MacNider And Mrs. Fenelon

PROGRAM IS ALL READY

Devils Lake, N. D., June 13.—The programs of the three days convention of the American Legion here include about everything that could appeal to the former soldier and to the distinguished guests of the occasion. Judge Landis will talk to the Legion convention, the public and to the 164th Infantry and in turn will receive some attention, the exact nature not disclosed. Hanford MacNider will talk to the Legion, to the public and the National Guard combined, but enforced leaving prevents him from being the recipient of other honors.

While it is known that a number of well known men and women will follow Judge Landis in the afternoon devoted to addresses, the name of Mrs. Eugene Fenelon, State President of the Women's Auxiliary of the Legion is the only one that has been made public to date.

Plenty of time has been given for business meetings, two complete mornings having been given over to committee reports and the transaction of business relative to the progress of the Legion organization as a whole. In addition to this the stated business of the convention, election of officers, selection of the next meeting place has been left to the last afternoon of the convention, the warmth of the fight being an incentive, it is believed for the entire list of delegates remaining until the last vote is counted. Not a little of the excitement of the convention is expected from the spirited wirepulling from candidates for the different offices. The decision of the next convention city is also expected to have a little excitement for the different delegations with something to trade or something desired.

OFFICIAL PROGRAM FOR CONVENTION

Tuesday, June 20, 10 a. m. Call to order by Department Commander Philip R. Bangs. Invocation by Department Chaplain L. W. Upshaw. Reading call for the convention. Address of welcome, President A. V. Haig of Devils Lake. Response, Frank B. Streeter, Linton. Appointment of committees.

IRISH SITUATION DESCRIBED AS BEING HOPEFUL

London, June 13.—The equanimity with which parliament and press received the postponement until Thursday of Colonial Secretary Churchill's statement on the Irish situation is taken as an indication of general confidence, that after the successive crisis, practically all difficulties have been smoothed away and the draft of the Irish constitution has been brought into harmony with the Anglo-Irish treaty. Michael Collins' arrival in London today was expected to mark the sealing of a final understanding. Arthur Griffith was not empowered to complete an agreement.

Upon his arrival, Mr. Collins declined to discuss the situation other than to express the opinion that "it was very hopeful." All Irish delegates were expected to confer with Colonial Secretary Churchill during the morning.

GIRL ATTAINS SCHOLASTIC ACHIEVEMENT

Bryn Mawr, Penn., June 13.—When Miss Gertrude Prokosch is graduated from Bryn Mawr College this month she will establish the record for the youngest girl to receive a diploma from that educational institution for women. She will not be a new arrival August and is a daughter of Dr. Wedward Prokosch, professor of German at Bryn Mawr. Furthermore, she will be fourth in her class. Her major subjects are French and German.

Disillusionment awaits those who think Miss Prokosch is a prodigy or a "grind." Aside from her scholastic achievement, which is in the way of completing the regular four year course at Bryn Mawr in two, she has made the highest strength test record in the history college, although she is of very modest physical proportions. Her record is 575, breaking the old record of 565. The regular college strength system includes bar chipping and other gymnastic stunts.

Defeated Chinese Insurgents Sue For Armistice

Tientsin, June 13.—If Chang Tso-Lin's suit for an armistice last week was a ruse, as is believed here, to give his defeated and retreating Manchurian army a chance to re-organize for a successful offensive it missed its purpose.

When Chang's troops attacked early in the morning they found a firm Chihlin line strongly supported by machine guns and artillery. After an all day battle Sunday the Manchurians are again headed homeward.

Reports last night said the Manchurians were withdrawing northward to Shan Haiwan with Wu's army pressing closely behind them. Two carloads of wounded were being sent to Tientsin.

Exodus of Diplomatic Corps from Capital

(By the Associated Press) Washington, June 13.—Three-fourths of the ambassadorial corps will be absent from the capital this summer, a condition almost without precedent when the president remains in Washington and Congress is in session.

The departure for their own countries of so many ambassadors has attracted attention, owing to the many important matters pending. The impression in official circles is that the explanation is to be found in the need for close consultation of the departments with their foreign offices for their guidance in handling their affairs in Washington.

The list of absentees will include the ambassadors of Great Britain, France, Argentina, Russia, Belgium, Japan, Brazil, Italy and Germany, although the latter has been in America only a few weeks.

LUTHERANS TO HOLD MEETING

Around 1500 Delegates Expected To Be In Attendance

Minneapolis, Minn., June 13.—Between 1,200 and 1,500 delegates, representing Norwegian Lutheran congregations of almost half a million people in the United States and Canada, will attend a special meeting here June 15 to 21 inclusive, at the call of the Rev. H. G. Stub, of St. Paul, president of the Norwegian Lutheran Church of America.

Requests from 40 congregations in the middle states of this country, which were of opinion that pressing business could not wait until the triennial convention in 1923 is held, prompted him calling the special session. Rev. Stub declared.

Probably the most important business to come before the church's delegates will be the report of the board of efficiency and economy, according to the president of the Norwegian Lutheran church. Members of this board were selected in 1920 for the purpose of investigating into the possibilities of effecting various economies in the church's finances, and their report is eagerly awaited, President Stub added.

BOY SLAYS FATHER THEN BURIES BODY

St. Cloud, Minn., June 13.—Jacob Steller, 17 year old, confessed today according to County Attorney Paul Ahles, that he killed his father, Thomas Steller, 45 years old, prominent farmer of St. Wendell, west of here. The victim's body was found today buried in a lonely spot a half mile from the family home.

The senior Steller disappeared Sunday and his son organized and led a searching party that sought him without avail. Today after a cross examination by the county attorney the latter declared young Steller confessed and gave all details of the slaying.

"I killed him but it was accidental," young Steller is quoted as saying. It was brought out that he had had difficulty with his father and the shooting occurred while the father and son were out hunting Sunday. "My father was looking up into a tree," the young man told the county attorney "and my finger was on the trigger of my gun. I stood a short distance behind my father. Somehow, I do not know exactly how, my gun exploded and the bullet entered the back of my father's neck."

The bullet entered the base of the brain, according to a preliminary examination. An inquest was set for late today and pending its outcome, young Steller is held without charges.

Steller will be arraigned tomorrow morning according to County Attorney Ahles. St. Wendell is an inland town about 10 miles northwest of here.

ROTARIANS TO STAGE TRIP TO HOLSTEIN HOME

Pilgrimage to New Salem Will Take Place on June 22, With Many Joining

Bismarck Rotary club will stage another trip over the New Salem Holstein circuit for the farmers of Burleigh county. It is planned to leave from the Tribune corner at 7 a. m., June 22. Farmers are requested to make reservations with The Tribune, Farmer-Labor Record, Finney's and French & Welch. They should be made at least a day ahead of the trip to insure enough cars.

Rotarians are the guests but any Bismarck business man whether he is a Rotarian or not and has a car is earnestly requested to participate in the trip. While the Rotary club is getting behind the trip so as to promote diversification with especial emphasis upon dairying, its members want to see the entire city join in and make this trip a record breaker.

The result of the last trip was the establishment in Burleigh county of a Holstein circuit that now has 27 members and great progress has been made.

Those who have cars and will put them at the disposal of the committee in charge of this trip are asked to notify Fred Copelin of the Copelin Motor company.

Details of the program will be announced later. A committee is at work on the proposition. The farmers who go as the guests of the Bismarck Rotary club will be to no expense. Transportation and lunch on the trip will be furnished and the guests will get back to Bismarck in time to return to their farms the evening of June 22.

CONFIRM ROAD PLAN APPROVAL

U. S. Bureau of Good Roads O. K.'s Main Street Road

Confirmation of unofficial word of approval of the proposed federal aid project from Bismarck to the new bridge by the United States Bureau of Public Roads has been received by the state highway commission. W. H. Robinson, said today. The approval was given on June 10.

Bids for the road on the Mandan side of the river will be received June 15 in Mandan. Bids for the project on this side will be received on June 29.

The Northern Pacific railway will construct part of the underpass on lower Main street while part of the work will be let to contractors who bid on May 29.

FIRES 6 SHOTS TO WOUND MAN, CHARGE BROUGHT

Kimball, Wis., June 13.—James Maher, 60, who has been employed by the Chicago and Northwestern railway as telegraph operator in Kimball, is in the Iron county jail awaiting trial in circuit court on the charge of having shot and wounded John Connetti last week. It is alleged that Maher fired five shots from a revolver at Connetti, but none of the bullets hit the man. Maher then reloaded the gun, it is said, and fired once more, the bullet lodging in Connetti's hip. Connetti was taken to an Ironwood hospital and a warrant was immediately issued for Maher's arrest. It is stated that trouble had existed between the men for some time.

POOL CLOSED FOR TWO DAYS

The swimming pool will not be open until Thursday afternoon. A leak was found in the lower end near the drain. The leak was contained, according to Arthur Baker, manager of the pool, by the hot sun of the early spring melting the asphalt filler between the slabs of concrete. It was being repaired today, the leak not being serious, and the water will be turned in again tonight.

TO STOP COUGHING AT NIGHT

A summer bronchial cough keeps not only the sufferer but other members of the family awake. Alfred Barker, 1061 Avondale St., E. Liverpool, O., writes: "I consider it my duty to write and tell the results of Foley's Honey and Tar, which I used for my boy who had been suffering from a bronchial cough for 7 or 8 weeks. Foley's Honey and Tar has done him wonderful good, and I shall always recommend it." It soothes and heals.

WHAT LABOR CONVENTION WILL DO

MATTHEW WOLL

FRANK MORRISON

JOHN P. FREY

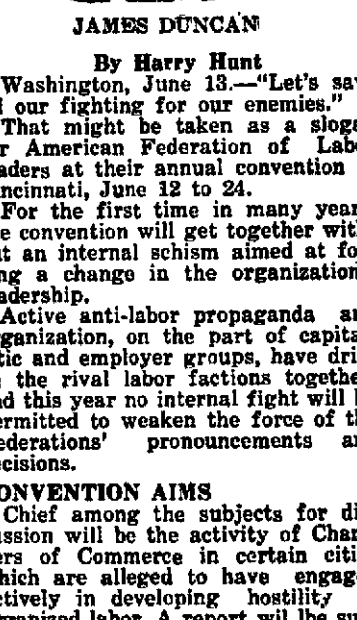

SAMUEL GOMPERS

JAMES DUNCAN

DANIEL J. TOBIN

SENATOR LA FOLLETTE

By Harry Hunt
Washington, June 13.—"Let's save all our fighting for our enemies." That might be taken as a slogan for American Federation of Labor leaders at their annual convention in Cincinnati, June 12 to 24.

For the first time in many years, the convention will get together without an internal schism aimed at forcing a change in the organization's leadership.

Active anti-labor propaganda and organization, on the part of capitalist and employer groups, have driven the rival labor factions together, and this year no internal fight will be permitted to weaken the force of the federations' pronouncements and decisions.

CONVENTION AIMS
Chief among the subjects for discussion will be the activity of Chambers of Commerce in certain cities which are alleged to have engaged actively in developing hostility to organized labor. A report will be submitted as to methods employed and as to financial interests identified with these chambers, which are said to have been exerting pressure, through banking channels, to influence conditions of labor and employment, particularly in the building industry.

CHILD LABOR
Closely allied with this anti-labor question will be that of child labor, to which a special session of the convention will be devoted. Senator Robert La Follette of Wisconsin, who has led the fight for child labor legislation in the Senate for many years, will address the convention on this subject.

LABOR INJUNCTIONS
Labor injunctions and the attitude of the courts toward labor, as compared to their attitude toward capital, will be discussed.

The labor situation as a result of developments in the coal and textile strikes will be carefully analyzed. Closely allied with this study will be consideration of a report to be made by a special committee which has been investigating and studying various theories of wage fixing in an effort to arrive at a scientific method of basing wages. The cost-of-living basis for wage fixing is opposed.

SOLDIERS' BONUS
Support for a bonus for the discharged soldiers probably will be voted, and Congress asked to hasten enactment of a bonus law.

RUSSIAN RELATIONS
Although efforts are being made to keep discussion of our Russian relationship out of the convention, it is by no means unlikely that it will be injected. If it is, a warm debate is certain, but with an endorsement of this country's refusal to recognize the soviet government apparently assured.

NATIONAL POLITICS
No little of the interest in the convention will center around the national political situation. Labor

without an attempt to stir up factionalism over England's fight for freedom. Now that it is an all-Irish scrap, the convention will keep hands off, in the same way that any internal dissensions within the Federation will be taboo.

MILLION FIRE IN SOO SHOPS

Escanaba, Mich., June 13.—Fire of undetermined origin destroyed the roundhouse, machine shop, engine stalls, and considerable other property of the Minneapolis, St. Paul and Sault Ste. Marie railroad here.

Ten locomotives were badly damaged. The fire is thought to have started in an engine house whence it spread to all sections of the yards. The damage was unofficially estimated at more than \$1,000,000.

CASH BONUS IS PROPOSED

Washington, June 13.—Senate procedure with the soldiers' bonus bill will be decided at a conference of Republican senators if plans made mature. Majority senators were understood to contemplate a conference late this week to determine when the bonus bill should be taken up in the senate and particularly whether the pending tariff bill should be laid aside in its favor.

Senator McCumber, Republican, North Dakota, in charge of the tariff and also of the bonus measure, was said to have agreed that the question should be taken before the conference.

Under Senator Ladd's amendment, the treasury would issue legal tender notes to the extent of \$2,500,000,000 or less which would be paid over to the veterans. The notes would be retired over a period of 25 years in equal annual installments.

To help make these payments all banks, banking institutions, trust firms, and banking partnership incorporated for or in excess of \$100,000 would be taxed to the extent of 50 per cent of their profits in excess of 12 per cent and all other amounts paid in taxes. Should funds from this source prove inadequate to meet the note retirements, interests on the foreign indebtedness would be used, and should both these sources prove insufficient the balance would be paid out of the treasury.

WORN OUT AFTER SHE COOKED A MEAL

Took Lydia E. Pinkham's Vegetable Compound—Read the Result

Cincinnati, Ohio.—"I suffered for a year with nervous troubles and irregularities before I took Lydia E. Pinkham's Vegetable Compound. My back pained all the time and I was unfit for household work. I was worn out if I cooked a meal, and was unable to do my washing. My girl friends and my sister told me if I would take your Vegetable Compound and Liver Pills I would be relieved. After taking the first bottle I felt better, and neglected it awhile, but found I could not do my work until I was stronger. So I took the Vegetable Compound again and now I am the mother of a 19 months old boy. He is fat and healthy and I am sure I could never have carried him if it had not been for your Vegetable Compound. I recommend your medicine to all women although I am young to be advising some one older."—Mrs. CHRIST. FIBROFF, 318 W. Liberty St., Cincinnati, Ohio.

Lydia E. Pinkham's Vegetable Compound contains no harmful drugs and can be taken in safety by any woman.

FRENCH TAKE UP ARMS BILL

(By the Associated Press)
Paris, June 13.—Bills ratifying the accord reached at the Washington armaments conference are now in committee in the chamber of deputies and probably will be reported at an early date. Pressure of other matters has delayed action thus far, but Premier Poincare is anxious that they come up for consideration by the full chamber before the summer session.

GOPHER BOARD TAKES UP TREE PLANTING PLAN

Cloquet, Minn., June 13.—A comprehensive program planned to promote reforestation of vast tracts of idle lands in Minnesota has been discussed at a meeting of the state forestry board here, which was attended by state and national foresters, legislators, lumbermen and representatives of civic and commercial organizations.

Delegations from the Rotary Clubs in Duluth and the range cities which are taking an active part in promoting reforestation were present at the meeting.

The visitors inspected the state forestry experiment station. The forestry board meeting and general conference followed a banquet at noon.

WISCONSIN IS LOSER IN CASE

Superior, Wis., June 13.—Judge Claude Z. Luse of the United States district court for western Wisconsin has handed down a decision denying the motion of the state of Wisconsin that the "battle ax" case be remanded to the circuit court of Bayfield county, Wisconsin, for trial. The case arose out of a decision of the Interstate commerce commission granting the Northern Pacific railroad permission to abandon a part of the "battle ax" line running from Iron River to Washburn. The state brought action in the circuit court claiming that as the Northern Pacific was a Wisconsin corporation, and that portion of the

SYRUP PEPSIN IN OLD AGE

Much used by elderly people for constipation, biliousness, headaches, etc.

MANY men and women, as they grow older, suffer constantly from little ills. The cause is the poisons produced by chronic constipation, resulting in headaches, depression, bloating, sour stomach, bad breath, etc. A single bottle of Dr. Caldwell's Syrup Pepsin will prove to you that you can so regulate yourself that elimination will occur promptly every day. Increased doses are not necessary. It is a combination of Egyptian Senna and other simple laxative herbs with pepsin. The cost is only about a cent a dose.

Half-Ounce Bottle Free

Few escape constipation, so even if you do not require a laxative at the moment let me send you a Half-Ounce Trial Bottle of my Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. TODAY'S AID TO BEAUTY

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair; that dissolves and entirely removes all dandruff, excess oil and dirt; can easily be used at trifling expense by simply dissolving a teaspoonful of canthrox (which you can get at any druggist's) in a cup of hot water. This makes a full cup of shampoo liquid—enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a stiffness which makes it seem much heavier than it is. After a canthrox shampoo arranging the hair is a pleasure.—Adv.

40 CASES ARE SET FOR TRIAL IN COURT HERE

Busy Jury Session in District Court Is Indicated After Calendar Call

More than 40 civil jury cases were listed for trial when the calendar was called in district court today. Judge Nussle indicated that the business of the terms was so great it probably all could not be concluded by July 11, the date of the opening of the McLean county term at Washburn. The criminal calendar, which contains 18 cases, was not called this morning because of the absence from the city of States Attorney P. E. McCurdy. The call was scheduled for this afternoon.

The cases involving differences between the State Home Building Association and persons for whom houses were built probably will not be heard this term, with the possible exception of the case against George E. Wallace. Mr. Wallace asked that his case be heard by July 1 as he wanted to leave for New York at that time. Charles Simon, assistant states attorney, interposed no objection. As jury cases have precedence it is possible that the case cannot be reached. The other cases probably will go over the term.

An unusual point is raised in a suit of the State of North Dakota against four men who were arrested on charges of transporting liquor and who were released on \$1,000 bond each and then jumped their bail. Automobiles in which liquor was hauled were confiscated. The automobiles may be confiscated upon conviction. E. S. Allen said that he would contest the confiscation of the automobiles on the ground that the men had not been convicted. The jury will report in district court tomorrow.

EXTORTION IS CHARGE MADE

Two Women and Man Arrested in Minneapolis

Minneapolis, June 13.—Charges of extortion were filed against two women and a man who were arrested when four detectives frustrated an alleged attempt to blackmail Loren Hazelwood, 2402 Lyndale avenue S., of \$1,000. A second man is being sought.

The two women arrested are Mrs. Eva Hibbs and Miss Ora Martin, sisters. The former claims to be a dentist's assistant while the other is a nurse. The man arrested gave the name of R. J. Graham. Mr. Hazelwood, an insurance man, told the police Mrs. Hibbs carried a \$5,000 life insurance policy, but informed him she wished to take out more. He was asked to visit their apartment. Mr. Hazelwood met the sisters. Miss Martin excused herself, he said, leaving the insurance man and Mrs. Hibbs alone. Mrs. Hibbs, according to Hazelwood, stepped out of the room shortly afterward. When she returned she had exchanged her street clothes for a kimono Hazelwood, the police said, explained that simultaneously with her return there was a knock at the door. Two men entered. They flashed badges and informed Hazelwood he and the woman were under arrest. Mrs. Hibbs pleaded.

GIRLS! BLEACH UGLY FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion whitener. Massage this sweetly fragrant lemon lotion into the face, neck, arms and hands each day and see how freckles and blemishes bleach out and how clear, soft and rosy-white the skin becomes.

GOVERNMENT JOB FOR D. B. C. GIRL

The U. S. Veterans' Bureau of Fargo, needed a stenographer. Bertha Moe, a graduate of Dakota Business College, Fargo, N. D., got the place. They knew she was well trained, having already employed 4 D. B. C. graduates. The Western Newspaper Union needed help at Minneapolis. Stella Wallman, a D. B. C. girl, got the job. They knew "Dakota" efficiency, from 7 previous experiences. This tells you what school to attend.

GOODYEAR MEN ARE OPTIMISTIC

Slope Dealers Gather Here For Session

Pep and enthusiasm marked the meeting held yesterday of Goodyear Service stations dealers of the Slope territory, at the McKenzie hotel. Harvey B. Stout, merchandising director for Goodyear, made the address regarding the future of the automobile tire, accessory and general rubber business, pointing to the constant development of it. The Goodyear service stations have been developed so that the sales of the dealers through cooperation with the directors of the service have been increased remarkably with regard to Goodyear products, and also in accessories.

C. E. Mosher, of the Goodyear Tire and Rubber branch at Fargo, gave an interesting talk on the production of Goodyear tires from the rubber plant to the auto rim. Moving pictures showing the entire process of making rubber were shown.

The meeting followed a banquet. Lahr Motor Sales company is the Goodyear service station in Bismarck.

McCUMBER'S STATEMENT

Alignment of Senator McCumber with the Nestos administration will serve merely to improve the political horizon for the independent forces. It cannot bring much support to the senior senator which he did not have previously. The Nestos administration has stood in greater need of McCumber's endorsement than has the senator's campaign needed the impetus of the backers of the present administration.

The arguments for the return of Senator McCumber are as strong and vital as ever and should not be affected one way or another by the endorsement.

That some of his followers who are displeased with the Jamestown program and the political maneuvers of Theodore Nelson and others will be disappointed is natural. They should not abate their good work to keep North Dakota's senator at the head of the finance committee, however.

Political blunders of campaign managers should not be given too deep a significance. Those independents who have entered the campaign on a program to clean the slate of state socialism will doubtless continue unabated their campaign. McCumber was not responsible for their entry into the campaign and is as powerless to compel their withdrawal.

Mr. Hughes evidently feared that McCumber would be charged with the responsibility of these candidacies and he has impetuously forced Senator McCumber into a hurried and eleventh hour disclaimer. None of McCumber's friends is misled and his campaign will go forward as vigorously as ever for North Dakota cannot suffer the loss of the prestige now gained in the position Senator McCumber holds in the United States senate.

How the henchmen of Gov. Nestos who have been vigorously opposing Senator McCumber will receive the statement and abate their opposition is the next important development.

SPECULATING

Stock in new oil and gas companies is being offered to investors at the rate of more than \$100,000,000 a month.

Since the signing of the Armistice about \$8,500,000,000 of oil and gas stock has been floated. While these figures are for face value, and a lot of this stock has been marketed below par, it is obvious that more money is going into the ground, in the oil country, than is being taken out.

COAL

The coal strike bores ahead quietly. More coal is being burned than is being mined. Reserve stocks, held in storage, have been decreasing 4,000,000 tons a week since strike started.

Stocks on June 1 were about 31,000,000 tons. Using a little simple arithmetic, you learn that by August a coal shortage is due—unless the strike ends or the open-shop mines increase their production.

The coal strike will be felt more, by consumers, after it is over, than now.

COMFORT

Two of the big manufacturers of men's collars are sued, charged with making imitations of the patented unstarched collar invented by John M. Van Heusen, of Baltimore.

Isaac L. Phillips, whose company makes the collar, says that the inventor's idea was scorned by big manufacturers over a long period, during which Van Heusen vainly sought financial backing.

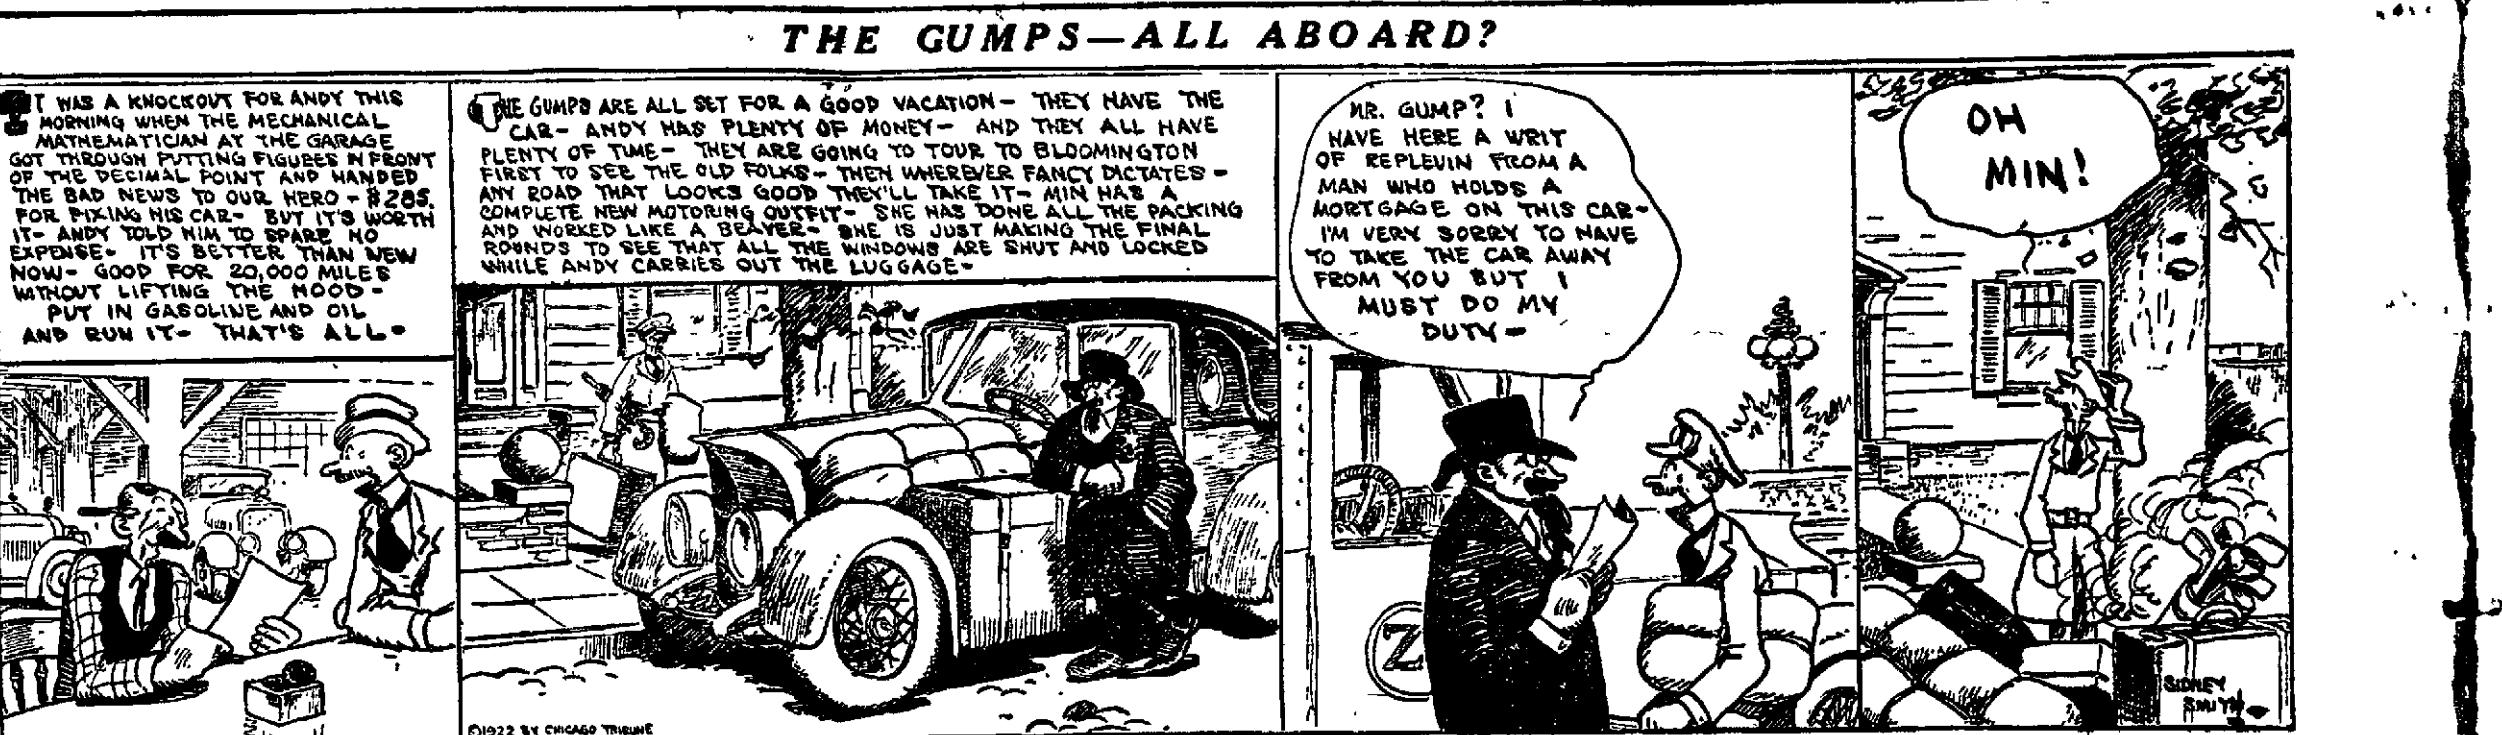

No matter how good a device or service, its success is at least three-fourths a matter of salesmanship. Every one should study salesmanship, the short-cut to fair wage, salary or profit. Van Heusen became successful as soon as he learned how to sell his idea.

REINCARNATION

Boston is interested in a woman named Antinea, who claims she is the reincarnation of an ancient Egyptian queen.

Antinea is a movie actress. While her reincarnation claim sounds as if a clever press agent lurks in the background, it is interesting that many millions of people believe they "lived before on earth. Maybe you wonder, yourself, at times. It is a fascinating belief, a reaction from the universal desire to escape death or extinction.

The reincarnationists usually are modest enough to admit that in previous existences they were Napoleon, Queen Elizabeth and similar person-

ages. You will travel a long time before you find one of the faithful believing that in a previous existence he was a nobody.

SUPER-WOMEN

Senorita Graciela Mandujano asks: "Who are the 12 greatest living women?" She wants to write articles about them for newspapers in her home country, Chile.

The National League of Women Voters, to which the Senorita's question is directed, "asks everybody's help in answering."

What 12 names do you suggest?

Our 12 greatest women are the mothers of our 12 greatest men. To a man's mother goes at least two-thirds of the credit for what he is. What he is not, usually, is his own fault.

FLAPPERS

A statuette of a flapper who existed in Egypt 5000 years ago is exhibited in Boston Art Museum. It was dug out of an ancient tomb.

The statuette shows the flapper making bread. Her hair is bobbed and appears to have a "permanent."

After 5000 years the earth's toiling millions still are bobbing hair and baking bread.

Life runs in cycles, eternal repetition.

The parents of the ancient Egyptian flapper probably made a great fuss when she came home from the hair-dresser's with her locks shorn.

FIREWATER

Robert Guibert went to Paris as official taster for the Quebec liquor commission. His job is to sample various kinds of firewater, to make sure that his part of Canada will import only the best.

Guibert reports that he is 300 "samplings" behind. To preserve his efficiency and make his work-day last its usual length, he tastes the samples but does not swallow them.

What chance has the tariff or the coal strike or other mighty problems when the news contains such real fairly tales as this? It would be interesting to know how many Americans will consider Guibert's job the height of success.

He is a man in a million—able to taste without swallowing. His job, by the way, is eternal.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

FUTURE LAND SALES ARE PROMISING

Lands in other states that were sold to speculators at extreme values may be one means of securing new citizens to North Dakota, for our lands are still low in price. Parties who bought lands during and immediately following the war, find that they cannot make the payments in states like Iowa, Minnesota, Nebraska and Illinois. The result of those high prices paid for acres of farm land is seen in the large number of foreclosure sales.

The slump in farm prices for 1920 precipitated the great loss in farm land values in other states, and farm crop losses in North Dakota. It is believed that adverse legislation in this state has had much to do in keeping out prospective farmers, and the enormous increase in taxation has been one result of bad legislation.

But all of this may soon be removed as an objection to this state, because our land values have never been artificially raised. A man can buy North Dakota lands at the present prices and with good farming methods, make an acre produce, in ordinary years, a profit for the labor and money invested in it.

"The trend of agricultural prices is at present very favorable compared with previous months. Prices of farm products are rapidly coming back to normal," according to the farm economist at the state agricultural college. The prices of hogs compared to corn favors the feeding of hogs, while wool, hay, cattle, hogs and corn have gained, and the price of wheat is somewhat higher, although there is little left in this state to sell. Butter remains about the same and the only two farm products that have lost materially are potatoes and eggs.

General advance in prices promise much for his state and for the future sale and better cultivation of our lands.—Jamestown Alert.

ADVENTURE OF THE TWINS

By Olive Barton Roberts

Nancy and Nick had some magic powder in a salt-shaker Mr. Peer about had given them. He had said: "Any time you get near enough to that mischievous fairy, Comet-Legs, sprinkle a little on his legs. They will lose their crookedness and become straight. He will lose his power and won't be able to ride his shooting star any more."

When the moon acted so crazily and the Twins found Comet-Legs fooling with the handles that ran the moon they thought of the powder.

Comet-Legs was so busy he didn't see them and before you could have cracked your thumb Nick had sprinkled powder on the fairy's crooked calves.

Comet-Legs gave a yell like a fire whistle.

"Oh! Ouch!" he cried. "What's the matter? Oh, my legs! My nice, lovely, crooked legs! They're getting straight! Oh, now I can't ride my star any more! I can't visit my wicked relatives! Oh! Oh! Oh!"

Comet-Legs kept hopping around on one foot and talking like a phonograph. But he stopped finally and rubbed his eyes.

"I looked at Nancy and Nick. 'So it's you, is it?' he said. 'I just said to Elena Meena, my cousin, the magician, 'Watch those kids! They're up to something. Comin' all the way to the moon to help old Peerabont! They'll do something!' And now you've up and gone and done it! But I'll get even. That powder makes anything that is curved straight. I want it. Give it here."

And he jerked the shaker from Nick's hand.

"If I shake some of this powder on the moon, it will change from round to square. And I'm going to do it!" he cried.

Away he ran.

WHAT TO DO IF YOU WOULD ENTER PUBLIC UTILITY BUSINESS

BY HENRY L. DOHERTY
President, Cities Service Company

Don't play the other fellow's game! The valuable man to any company is the man who can do a thing better than anyone else, or who can do a thing that no one else can do. Too many men neglect a careful study of their own line of work because they are more interested in something else.

Baseball is a fine game and I like it, but if I have a salesman who is an up-to-the minute authority on batting averages and fielding records during and even after business hours, I know that he is more interested in baseball than in the sale of our securities.

There are lots of employees who, although intelligent, studious and in some instances even brilliant, never get very far. Their troubles are various.

In one instance such a man's stumbling block was theaters, not so much seeing plays as the devotion of a great part of his spare time to picking up the pater of the profession and its personnel. He wasn't in the theatrical producing business and the effort he was expending certainly would not offer him any opportunity for capitalizing it.

It is the man who studies the work he is doing, the man ahead of him and his work, and fits himself to move up when the time comes, who wins success in the utility or any other business.

A great deal of time can be wasted in discussing political campaigns. The same amount of energy used in such a discussion could well be applied in

Lutherans May Remove Seminary From Gate City

Milwaukee, Wis., June 12.—Delegates from English speaking Lutheran churches from the states of Wisconsin, Minnesota, North and South Dakota and Montana, a part of the synod of the Northwest of the United Lutheran church in America, will meet in annual convention here today.

Of paramount importance at the meeting is the matter of the removal of its theological seminary at Fargo, N. D. The executive committee of the synod has recommended that it be removed to the Twin Cities, so that it may be ready for occupancy this fall.

Question of cooperation between the synod of the Northwest and other Lutheran synodical societies in this territory, which have undertaken English home mission work, also will be an important subject for the convention.

A fund of \$250,000, of which almost half has already been raised, is the goal set for providing revenues for enlarging and equipping the theological seminary, which it is proposed to move to Minneapolis or St. Paul.

Rev. F. H. Knobel of New York City, president of the United Lutheran church, and Dr. S. H. Seibert, district superintendent of home missionaries, will be among the important speakers at the convention.

Each of the 67 congregations is entitled to send one lay delegate in addition to its pastor.

News of the Markets

ORDERS CHECK DECLINES IN STOCK MARKET

WHEAT PRICES RALLY AFTER SEVERE DROP

New York, June 13.—Supporting orders checked the further decline of prices at the opening of today's stock market, but the tone was very feverish and unsettled. Rallies of one to almost two points in domestic and foreign oils American Smelting, Union Pacific and Coca Cola were offset by further reactions of 1 to 2 1/2 points in Vanadium, Chandler, Sumatra Tobacco, Stromberg, Carborundum and several of the miscellaneous issues. The merger steels were hesitant. Republic advancing one point, while Midvale reacted that much. Shipings were under further pressure, Mercantile Marine preferred falling 1 1/2 points. Foreign exchange reflected nervous conditions abroad with greater weakness in Austrian exchange on the closing of the Bourse in Vienna.

Elimination of speculative or margin accounts added to the stock rally today. Gulf States Steel, Beet Sugar and Davison Chemical lost 1 to 3 points and many of the miscellaneous specialties gave way to increased pressure. The list rallied before noon, popular oil rising 2 to 3 points. United States Steel and Independent Steel recovered 1 1/2 to 2 points and metals and their accessories rose 1 to 2 points, food specialties, sugars and Coca Cola rallying to 1 point. Davison more than recovered its loss. Allied Chemical was strong with American Woolen. Among rails Union Pacific and Southern Pacific, Rock Island, Reading, Baltimore and Ohio and New Haven showed gains of 1 to 2 points. Call money opened at 3 per cent.

RUST REPORTS GAVE STRENGTH

Minneapolis, Minn., June 13.—Reports of rust from Kansas, North Dakota, tended to strengthen the wheat market today. Two samples of quack grass with the infection were received. Accompanying reports said that the rust was spreading rapidly. Nothing was received to show that wheat plants had been attacked but that the rust was a rather advanced stage for this time of year, caused nervousness and tended to prevent any fresh pressure on the market. Receipts of cash wheat were somewhat larger than expected and demand lacked snap.

Best grades were scarce and sold at the same price compared with July, but beginning with the ordinary quality also for the tone was apparent and prices were generally higher than compared with the futures. Fancy durum was in fair general demand and steady compared with futures.

Winter wheat demand was unchanged. Corn offerings were fairly liberal and the demand for other grain and feed quality was slow. Shippers continued to take the best quality at firm comparative prices and without hesitation. Oats demand was a little slower. Rye demand was less active. Barley market acted sluggish. Flax offerings were in fairly good demand and receipts fair.

DISCOUNTS IMPORTANT

Experts at the college discounted the damage to the crop and the rust as it makes its appearance each spring. Only complete eradication of the barberry bush which harbors the spores in early spring will check this, they said. The amount of damage that the disease will do to the crop is wholly dependent on the weather, they added, and dry weather acting as an enemy of rust.

In making his statement Mr. Bolley stressed the importance of the rust in the early spring in Minnesota and to be started in North Dakota July 1. Rust had been described on the barberry earlier in the season and the finding of it on wheat was altogether unexpected, Mr. Bolley and Mr. Mayow agreed.

REPORTS RUST AT COLLEGE

Fargo, N. D., June 13.—George Mayow, assistant pathologist of the University of Minnesota, and stationed at the state agricultural college here today announced that black rust in the red or early stage had been discovered near the State University and to be started in North Dakota July 1. Rust had been described on the barberry earlier in the season and the finding of it on wheat was altogether unexpected, Mr. Bolley and Mr. Mayow agreed.

OUTLAW BALL PLAYERS SUE FOR BACK PAY

Milwaukee, Wis., June 13.—Stating the same cause of action as those mentioned by Joe Jackson, former Chicago American league club ball player, Charles (Swede) Risberg will file today according to his attorneys, the third of the suits against Charles A. Comiskey, Louis Comiskey and the ball club, demanding damages for his exclusion from organized baseball, back pay and bonus, growing out of the world series scandal of 1919.

Notice of suit and summons was filed in this case several weeks ago. Jackson and Oscar (Happy) Felsch have already filed suit. Jackson asks \$19,000 in his action.

Deputy sheriffs have been unable to serve papers on Comiskey. The club owner left the state for Chicago the day the Jackson suit was filed, and has not returned since, it is asserted.

FREEBERG BEATS LOCAL WRESTLER

John Freeberg, champion Swedish wrestler, had no difficulty in winning his handicap match over Ellsworth Finlayson, local wrestler, last night. The match was held as a part of the concert of the circus instead of at the Arcade-Bowery. Freeberg threw Finlayson in 12 1-2 minutes for the first fall and in 1 1-2 minutes for the second.

Freeberg outweighed Finlayson forty or fifty pounds. The Swedish champ is a powerful man, with a thorough knowledge of wrestling and is a remarkably fast man. Finlayson's arm was hurt in the second fall, and he was carried from the mat.

Freeberg is making headquarters in this country in Minneapolis, and is matched to meet Strangler Lewis, for the heavyweight championship of the world, soon.

TURTLE LAKE LOSES, 5 TO 4

Turtle Lake, N. D., June 13.—L. J. Vonderheide walking four men in the fourth inning, forcing in a run which was followed by a two-bagger wasn't enough to allow Velva to win in nine innings. Neither could Turtle Lake deliver the necessary hit with three runners on and one down in the fifth, making it necessary to play 10 innings in the Sunday game. Velva won out in the tenth by a score of 5 to 4. This was Turtle Lake's first defeat in four games.

DAVE EMULATES EDDIE PLANK

DAVE DANFORTH (EDDIE PLANK INSET)

They say Eddie Plank is Dave Danforth's model of all a baseball pitcher ought to be.

This isn't strange. About five years ago, after Dave had been tried out with the Chicago White Sox and found wanting, Eddie took him in hand. He gave much good advice to the youngster, and a great deal of it still sticks with him. He pitches with Eddie's old form and has many of his tricks.

BABE RUTH'S RIVALS FORGE AHEAD OF YANKEE SLUGGER

New York, June 13.—Three of Babe Ruth's home run rivals had forged still further ahead of the Yankee slugger today as the result of a simultaneous skirmish yesterday. Kenneth Williams of the St. Louis Browns, who has been in a woeful slump for several weeks, cracked out his fifteenth circuit drive. Rogers Hornsby his National league fellow townsman drove out his 14th and Bing Miller of the Athletics counted his thirteenth.

The Cardinals went on a swatting rampage against the Philadelphia twirlers and tied their own major league record of 10 consecutive hits in a single inning. Trailing the Phillies 6 to 3 in the sixth, the westerners opened a barrage against Meadows and Winters that brought seven runs across the plate. Altogether the Cards gathered 23 hits, five by Lavan and four each by Hornsby and Jack Smith. The score was 14 to 8.

Williams' clout with one on in the

collegiate race for Wisconsin since the college withdrew from the Poughkeepsie regatta several years ago.

GIBBONS BOUT IS POSTPONED

The Mike Gibbons-McCarthy boxing bout scheduled for Mandan has been postponed for three weeks because of an injury to Gibbons in training. It was scheduled for June 16.

BRainerd MAN WINS SHOOT

Brainerd, Minn., June 13.—Final results of the first annual registered trap shoot under the auspices of the American Trapshooters' association at Breezy Point Lodge are as follows:

H. M. Kalland, Brainerd won the loving cup, donated by the Breezy Point Lodge for highest average for the three days, 378 out of 400.

Second, Fred E. McKay, Minneapolis, 372; third was tied by three, Jerry Wilson of Sisseton South Dakota; F. W. Fawcett, Robinsdale, and D. C. Rand, Jamestown, N. D., all three scoring 370.

Phil Burden and W. H. Eisenbach of Duluth were ninth and tenth, respectively with 353 and 350.

LEWIS DEFEATS JACK SAMPSON

Wahpeton, N. D., June 13.—Ed. "Stranger" Lewis, world's heavyweight wrestling champion, retained the title by throwing Jack Sampson, Wahpeton mat artist, in their first two falls here last night. With the adlock barred, Lewis resorted to the hammerlock, throwing Sampson the first time in 15 minutes and 20 seconds, after a real tussle. Sampson's weaker arm proved a hindrance to him. At one time the challenger almost threw Lewis with a head scissor and arm hold, but the champion managed to break the hold.

The second fall came at the end of 15 minutes of work, also by means of the hammerlock.

Lewis threw Sampson some time ago in their first match with the headlock after Sampson had won the first fall, and the challenger was unable to go on for the third fall.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn. Instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses without soreness or irritation.

STRUCK BY STORM.
Chattanooga, Tenn., June 13.—Chattanooga was struck by a wind, electrical and rainstorm which caused considerable damage.

A 25 per cent crop loss. According to reports the area affected by the storm does not appear to be large.

A part of the sanitary sewer which was laid in quick sand is being relaid as a result of the pressure of the quick sand causing the walls to cave in. Since the walls of the ditch have to be cribbed to prevent a repetition the work is expensive and slow.

The special assessment committee has just completed an assessment for the trunk sewer which was laid in 1921. A date will be set shortly for a meeting of the city commission in order that they may confirm the assessment.

Joe Zuber of the Northern Pacific shops, has left for Atlantic City, N. J., where he will attend the national convention of the Master Mechanics of the U. S. Railroads.

Max Morgan, state livestock expert, arrived from Fargo for a short business trip. He is enroute to Hettinger county. Later he will return to assist in making arrangements for the New Salem Holstein dairy tour which will be held on June 22.

The annual Flag Day program of the B. P. O. Elks will be held Wednesday evening at the Elks hall. The local lodge is making arrangements for a splendid program.

Clyde Stark, who has been attending the State Agricultural college at Fargo, returned home Saturday to spend the summer vacation.

In a double-header at the fair grounds, the State Training school and the Catholic Order of Foresters won from the Knights of Pythias and Harmon, respectively. The score in the first game between the state school and the K. of P. teams ended 9 to 3. It was a scoreless tie up to the fifth inning. Batteries were Creighton and Hines for the school and Love and Olson for the lodge. The second game, won by the Foresters ended 5 to 4. Both games were hotly contested.

Sidney Cohen and sons, Meyer and Robert, are in the city making arrangements with O. M. Larson of the Arcade Variety store, which the former has purchased. Meyer and Robert Cohen have been attending the state university at Grand Forks and with their father will take charge of the store Thursday, June 15th.

ROAD AUTHORIZED TO SELL \$2,000,000 IN MORTGAGE BONDS

Washington, June 13.—The Chicago and Northwestern railroad was authorized by the Interstate Commerce Commission to issue and sell \$2,223,000 in mortgage bonds of 1927, the price and interest rates to be determined at time of sale. Receipts from the transaction will be used by the railroad to apply on purchases of new equipment.

SIZE, strength, resiliency, a really safe tread, good looks—these are the outstanding points that are making Fisk Cord Tires the standard for tire value today. With no exceptions, Fisk Tires challenge comparison with those of any other make. The Fisk appeal is to the man whose judgment directs the spending of his money.

There's a Fisk Tire of extra value in every size, for car, truck or speed wagon
